

# M'KINLEY AND ALGER CONFER

## Discuss Situation in the Philippines.

### CONSIDER ADVISABILITY OF CALL FOR VOLUNTEERS.

#### Gen. Otis Asked to State What Strength He Wanted—Assured His Request Would Be Granted—Escaped Spanish Prisoner Reports That Lieutenant Gilmore and Sailors of the Boat Crew of the Gunboat Yorktown Are Well—Memorial Day at Manila.

Washington, May 31.—[Special]—The Navy Department this morning received the following message from Capt. Barker, in command of the fleet at Manila: "An escaped Spanish prisoner reports that Gilmore and the sailors are well."

The message refers to Lieut. Gilmore and the boat's crew of the gunboat Yorktown, who were ambushed and captured by Filipinos some time ago.

#### Discuss Call For Volunteers.

Washington, May 31.—[Special]—Secretary Alger held a long conference with President McKinley today, concerning the advisability of a call for volunteers.

After the conference Secretary Alger stated that he had cabled General Otis, asking him to state what strength he wanted, and telling him that his request would be granted.

#### Graves at Manila Decorated.

Manila, May 31.—Memorial day was celebrated at Battery Knoll, where Scott's guns were planted against the Filipino trenches in the first day's fighting at Manila. Nearly 300 soldiers lie buried there on a black mound, surrounded by rice fields, rough boards marking the graves. Beyond these are Spanish blockhouses and bamboo hedges, which were mown by shells from the American guns.

The few soldiers who could be spared from the trenches went to Battery Knoll, dusty and bronzed, bearing flowers with which to strew their comrades' graves. A silk flag was placed above each mound.

London, May 31.—The New York Journal correspondent cables that a special dispatch from Labuan announces that severe fighting is reported between Americans and Filipinos on the island of Mindanao. The principal city on the island—Zamboanga—has been bombarded and burned, and is in ruins. The same dispatch reports trouble in Sulu. The Americans have blockaded the port. A British steamer was denied admission, and was escorted seaward by the United States gunboat Castine.

Labuan is an island in Brunel bay, a few miles off the coast of Borneo. It is a British possession, and is connected by cable with Singapore to the westward and Hongkong to the northward. It is much nearer the Sulu archipelago than is Manila.

Washington, May 31.—The cablegram from London announcing that there is severe fighting on the island of Mindanao; that Zamboanga has been bombarded and burned, and that American vessels are blockading the Sulu groups finds no corroboration here.

#### TELL OF CAPT. TILLEY'S DEATH.

Two Dispatches from the Philippines Received at Washington.

Washington, May 31.—Two dispatches were received at the war department Tuesday giving the first details of Capt. Tilley's death on the island of Negros. One of these is as follows:

"Hilo, May 30.—Adjutant-General, Washington: Capt. George H. Tilley, United States volunteer signal corps, was killed at Escalante, east coast island Negros, by insurgents, Saturday, May 27, 11 a. m. Details not known. Burial at Hilo, May 30.

#### "VAN VALZAH."

The second dispatch says: "Manila, May 30.—Adjutant General, Washington: Cable company's vessel placing cable between Hilo and Cebu ran to Escalante, east coast of Negros, to remove old cable connections. Capt. Tilley, signal corps, accompanied, and with captain of vessel and three men visited town, natives making friendly demonstrations. While there ambushed; vessel's captain and one man escaped to vessel in launch; Tilley and two men taking to water, and not rescued; vessel then reported at Hilo; Gen. Smith informed, who immediately took 75 men and proceeded to Escalante. He reports this morning that body of Capt. Tilley found floating in river; marks of violence on head; body sent to Hilo; Smith's remains at Escalante for the present. OTIS."

#### Dewey Not to Hasten Homeward.

Hongkong, May 31.—Since his arrival here, on May 23, on board his flagship, the "United States cruiser Olympia," Admiral Dewey has improved in health, but he still refuses all invitations of a social nature. The admiral has also relinquished all official duty on board the Olympia. The date

of his departure for home is still uncertain, his intention being to remain here until he is thoroughly recuperated.

## PANA MINERS WILL STAY OUT.

### Decide That They Cannot Work with the Nonunion Men.

Pana, Ill., May 31.—The union miners held a mass meeting Tuesday to consider the decision of the state board of arbitration. The miners decided to abide by the board's findings regarding the scale, but adopted a set of resolutions declaring that they would not return to work so long as non-union men were employed in the mines. As the operators have steadfastly declared that they will not voluntarily discharge the men who have stood by them during the long struggle, it appears unlikely that a settlement can be reached in the near future.

## TALK ON CHRISTIAN SCIENCE

### Edward D. Kimball at Beloit Last Evening.

A party of ten from this city visited Beloit last evening for the purpose of listening to the able address of Edward D. Kimball, of Chicago, who expounded the doctrine of christian science in a fair and most impartial manner, his purpose being to set right as far as possible, many of the false conceptions regarding that religious faith.

It was in Beloit and while engaged in business in that city about a dozen years ago that Mr. Kimball received his first insight to the new "dispensation of truth," as he terms it. He has gradually grown faith and understanding through his research of the scriptures until today he seems to have exemplified that scriptural promise "seek and ye shall find." Those from this city who attended the lecture report that the Goodwin Opera house was full to overflowing with a most attentive audience. The following local delegation was there: Messrs. and Mesdames L. O. Robinson, A. C. Swift, W. L. Swift; Mesdames C. J. Persels and O. D. Brace; Miss Emma Corwin and Mr. P. E. McNall.

#### Likely to Favor Henderson.

Minneapolis, May 31.—Congressman J. T. McCleary has called a meeting of the Minnesota congressional delegation at the Windsor hotel in St. Paul this afternoon to consider whether the delegation shall vote as a unit on the speakership, and if so, for whom. It seems fairly probable that the seven votes will be formally and publicly announced for Col. Henderson. It is not denied that Wisconsin's action has had much to do with swinging the three doubtful and dilatory members into line.

#### State Troops to End a Fend.

Frankfort, Ky., May 31.—One hundred state troops will be sent to Manchester, Clay county, to assist the civil authorities to capture and bring to trial the leaders in the Baker-Howard feud, that has been carried on with bitterness for several years, resulting in the killing of nine or ten men. Two of the Baker faction are now in jail, and when the troops attempt to arrest the guilty Howards, more bloodshed is expected.

# STURGEON BAY MILL BLOWN TO PIECES

## TERRIFIC EXPLOSION IN A SHIPYARD.

### Concussion Shatters Glass in Nearby Buildings—Fortunately Employees Were at Dinner—Suicide of a Kaukaunee Woman by Drinking Acid—State News.

Sturgeon Bay, Wis., May 31.—The boiler in the mill of Leatham & Smith's shipyard exploded shortly before 1 o'clock yesterday, blowing the structure into atoms. Fortunately, none of the workmen had returned to their labors, and nobody was injured. Had the explosion occurred fifteen minutes later there would have been loss of life. The concussion shattered the glass of surrounding buildings.

#### Drown in Lake Winnebago.

Found du Lac, Wis., May 31.—Arthur Pratt and William Skinner, aged 25 and 26 years, drowned in Lake Winnebago last evening, a small sailing vessel which they occupied with A. R. Burnett, capsizeing about two miles at Lakeside park.

The young men clung to the boat for several hours until Pratt and Skinner, unable to endure the strain longer, and chilled through, were washed off. Burnett succeeded in righting the craft and pulling himself into it and crawling under the seat he lost consciousness. He was picked up by a pleasure party on board the steamer Okoboji, four hours after the capsizing. He is now out of danger. Searching parties were sent out and worked till 9 o'clock without recovering the bodies of the other two. The search was resumed at daylight. The young men had gone out early in the morning to fish and sail on the lake. Both had been employed for six years at the Gurney refrigerator factory and were well thought of.

O'Shea of the university gave an address on "The Service That a Physician May Render to Education."

#### No Exhibit at Paris.

Appleton, Wis., May 31.—The paper industry of the United States will probably be unrepresented at the Paris exposition of 1900. The paper manufacturers need a larger space than that accorded to them and will be unable to adequately display their products in the small gallery granted, so the general opinion is that the immense trade will decide not to send any exhibit.

#### Hard to Pay Off at Santiago.

Havana, May 31.—The unwillingness of the Cuban owners to assist in the payment of private by proving the legitimacy of their services handicaps the distribution of the United States' \$3,000,000. The difficulty experienced in identifying the private which annoyed Col. Randall and Major Dodge in this city was repeated at Santiago. Only forty-five men proved their claim to American money, though almost twice that number presented themselves as candidates. The majority of the men who appeared were fully armed and equipped.

Passengers must swear that they have not been in Egypt within twenty-one days, or otherwise they will be compelled to undergo twenty-one days' quarantine aboard ship. These precautions are taken in consequence of the outbreak of the plague in Egypt.

#### Military Service Evaded.

Vienna, May 31.—The Militar Zeitung declares that fully 30,000 Austro-Hungarians annually escape from the country by means of forged passports for the purpose of evading military service. A majority of them go to America, where it is believed there are 100,000 of them who ought to be in the service of the empire.

## DANIEL SHOOK WRITES HOME

### Tells of the Cruel Plow Methods the Mexicans Have.

Daniel Shook, who for fifteen years worked for James Mole in this city, and who is now raising leaf tobacco on a five hundred-acre tract of land in Mexico, writes local friends a most interesting letter about the methods adopted by many of the Mexicans in plowing.

Mr. Shook is in Mexico in the interest of Charles Leoni & Co., an English leaf tobacco firm.

In speaking of the way many of the Mexicans do their plowing, Shook says that they use but one handle to their plow and that they use oxen instead of horses, the plow being pulled along by traces that are hitched to the horns of the oxen.

Shook has had several plows sent to Mexico from the Janesville Machine company, and if possible he intends to show the advantages to be derived by their usage.

West Porter, May 31.—John Hendrick was the guest of his son, Claude, in Janesville, a few days the first of the week. Mr. Baldwin of Evansville, was here Sunday. Mrs. D. Casey returned to her home in Janesville Saturday, after spending a week here. Quite a severe wind and hail storm visited this part of the country Sunday night. #### Which Is South.

You do not need a compass to tell you which is south if you have a watch, and the sun is shining. All you have to do is to lay your watch flat in the palm of your hand, with the hour hand pointing straight in the direction of the sun. No matter what time of day it is the point exactly halfway between the tip of the hour hand and the figure XII on the dial will be south and from this, of course, you can easily tell the other points of the compass.

#### Trauant Laws Enforced.

The absence of a child from school in Switzerland, unless in case of illness, is punishable by a fine, the amount of which is daily increased. If it is suspected that the child's illness is shammed a doctor is sent by the school authorities, and when he is convinced that the suspicion is correct, the parents have to pay his fee.

#### Would Stop Buying New Rifles.

Antwerp, May 31.—An official of the Belgian war department is authority for the statement that the Russian delegates at the arrest-of-arms conference at The Hague now desire to secure assent to a resolution binding the great powers not to adopt new rifles or improved artillery for the term of at least five years, and, if possible, ten. This proposal appeals with especial strength to Belgium, as to the other small neutral powers, on which the continual change in equipment is a terrible burden.

Wichita, Kan., May 31.—Jerry Simpson is a candidate for the United States senatorship. The populist ex-congressman is to-day one of the strongest men in the fusion party in Kansas. ## LEADERS NOW IN CONFERENCE.

### President Kruger and Sir Alfred Milner Meet to Discuss the Question.

London May 31.—It cannot be denied that uneasiness is felt in the British colonial office at the tone of the reply of F. W. Reitz, state secretary of the Transvaal, to Mr. Chamberlain's dispatch regarding the government dynamite monopoly. Reitz hints that Mr. Chamberlain does not know what he is talking about. He asserts that the monopoly is for the benefit of the state generally, and compares it favorably with Great Britain's opium monopoly in India. He also asserts that the uitlanders enjoy the same trading rights as the burghers, which obviously may be proved untrue. It is felt that this is an ominous attitude for the Transvaal government to assume.

Although today's meeting between Sir Alfred Milner and President Kruger bids fair to have momentous consequences—for it will either settle on a sure basis the political future of the South African states or will increase the already dangerous state of tension in Transvaal affairs—little attention is paid thereto in the British papers. This is not typical, however, of public sentiment, which is keenly interested in the progress of events. This probably is due to the financial stake in the peaceable development of the mining industries possessed by nine out of ten middle-class Englishmen.

The colonial office is not more than unusually busy, for the conduct of affairs is left wholly in Sir Alfred Milner's hands. Said one of the leading colonial office officials: "No man living is more competent to deal with so wily an antagonist as Kruger than is Sir Alfred Milner. Of course he is fortified with instructions from this office, but these concern only the general line he is to assume. He must deal with the minor details on his own responsibility."

"Every one must recognize that the old conservative Boers constitute the chief element of danger. They are ignorant and, puffed with pride, desire only to show their contempt for Great Britain at any cost. I myself think that reliance may be placed on President Kruger's ability to control this element."

#### Steel Workers Have Adjourned.

Detroit, Mich., May 31.—The convention of the Amalgamated Association of Iron, Steel and Tin Workers ended here Tuesday. Indianapolis was selected as the place of next meeting. President T. J. Shaffer and Secretary-Treasurer John Williams were re-elected unanimously. M. F. Tighe of Wheeling, W. Va., was chosen assistant secretary. The wage scales, which have been fixed so far as the association's side of the question is concerned, are as yet unknown in detail to the public, and will remain unknown till the conference with the manufacturers, the date of which meeting has been left with President Shaffer and Secretary Nutt of the employers to decide.

#### It Solves the Question.

In a portion of Hanover, Germany, a local decree requires each farmer to deliver to the authorities twelve sparrows or sparrow heads between Oct. 1 and Dec. 1 or pay a fine.

## PIONEER RESIDENT CELEBRATES EVENT

S. C. CARR, OF MILTON JUNCTION,  
HERE SIXTY YEARS.

Gives a Dinner and Invites in Friends in  
Honor of Arrival Within the Borders  
of Old Rock—Interesting Narrative  
of His Life—Other Near-by  
News.

On the 28, inst., S. C. Carr, of Milton Junction, gave a dinner and celebrated the sixtieth anniversary of his arrival in Rock county.

His father, Peleg Slocum Carr left Stephentown, N. Y., with his wife and nine children May 5, 1839, driving with hired teams twenty two miles to Troy where they loaded their household goods on an Erie canal boat.

At Lockport they found a blockade of thirteen miles of boats on account of defective locks and they were delayed a week. At Buffalo they were transferred to a boat on the lake which in due time reached Milwaukee, where they unloaded onto scows which were poled out from the shore.

Here teams were again hired and they drove out through the Milwaukee woods eighteen miles of heavy timber, over corduroy roads in the marshy places to Prairieville, now Waukesha.

After being on the road two days these early settlers arrived at Milton, where they rested at Joseph Goodrich's, uncle of S. C. Carr.

May 28, his parents moved to what is now called the Pioneer Farm, two miles northwest from Milton Junction on the territorial road to Madison. Here they bought a claim to six eighths which Augustus Churchill, father-in-law of Lucius B. Caswell, of Fort Atkinson, had claimed in 1837. When the land came in market in 1840, Mr. Carr's father went to Milwaukee where he secured a government deed by paying a dollar and a quarter an acre.

Mr. Churchill had built a small log house eighty rods southwest of the present residence, where they lived the first summer.

There was only one house between the pioneer farm and Madison and it was several years before Edgerton, Albion, Newville or Milton Junction were thought of. Clear lake was six feet higher in those days and Duck lake, just south, which was dry and burned over last fall, was a lovely sheet of water. The Northwestern railroad did not reach Milton Junction until nineteen years after they came, crossing the St. Paul tracks, which were laid in 1858 and Peter McAdams built the first house where the St. Paul House now stands.

In those early times game was very plentiful, especially deer and wolves. The latter would often keep one awake nights. A large village of Indians was located at the foot of Lake Koshkonong. With the exception of a few months spent in travel in this country and Europe, Mr. Carr has been continually on one farm. If anyone can equal his record of sixty years on the same farm, he would like to hear from them through The Gazette.

## WEST PORTER PARTY A SUCCESS

Graduating Exercises Well Attended—  
Lightning Does Damage.

West Porter, May 31.—The party at the Porter band hall Friday evening was well attended, there being two hundred and twenty-five people present. The dawn of day was making its appearance before dancing stopped. A pleasant time is reported. The graduating exercises at Cooksville last Friday evening were well attended. There were three graduates. The program was well rendered, and the participants did well. Last Saturday morning lightning struck Benjamin Davis' barn, doing considerable damage in the way of splintering the timber, but not setting anything on fire, although it ran directly through the hay mow. Frank Griffith was in the barn at the time, and received a slight shock. Some from here attended the

funeral of the late Mrs. Gunn, at Evansville Tuesday. Mrs. Gunn had many friends in this vicinity, as she lived at Cooksville for a number of years. Charles Eggleston of Brooklyn, visited his sister, Mrs. George Keylock, last Friday evening. Mrs. Grace Pierce of Chicago, and L. Pierce of Clinton, Iowa, are visiting at F. J. Pierce's, and relatives in Union.

**Richmond.**  
Richmond, May 31.—Our rain of Tuesday night was a God-send and everything is growing in fine shape. The ground was becoming quite dry. Those who planted corn before the continued cool weather will in very many cases, plant over, the ground being so cold as to not let the corn come up. It rotted before coming through the ground although many in this and all other parts of the country are complaining of seed corn not all growing. Yankee seed corn is in great demand in this vicinity as those planting over want early corn. Louis Johnson who has been ill, is able to be around again but has not gained sufficient to tend to his work. A very beautiful monument was erected on the grave of the late Orvid Kilnass at Richmond cemetery last week. The ice cream social at Mr. John Delaney's was well attended and a good time is reported by all. Now that the fish law has expired numerous parties are visiting Turtle lake and some will have hopes to pick up evidence of good fishing. Many from Lima, Whitewater and Johnstown may be found seeking summer sport on the green banks of Turtle lake and catching choice fish from its waters. We understand that a couple of the boys, Howard Peterson and Oscar Holbrook, are about to leave here for a journey to South Dakota, in a covered wagon, taking some horses with them. They are now at work on the wagon at Andrew Peterson's, blacksmith shop at Johnstown, and intend to leave this week. We all wish them good luck and a prosperous journey. Holbrook Bros. are at work shingling the Methodist church. Winter rye is already headed out and promises a good crop. Miss Clark, sister of Mrs. Claxton, has been visiting here, and returned to her home in Delavan last Saturday. Those having sowed spring wheat this season will probably receive a good price for it, as winter wheat is a failure throughout the country. For the last three successive years corn has been a successful crop. Farmers need not be surprised if this be an off year.

**Footville.**  
Footville, May 31.—An electric storm bringing rain and hail with it swept over the village of Footville Sunday evening at 8 o'clock doing considerable damage between here and Hanover, blowing down telegraph poles, windmills and tobacco sheds. Mrs. Vesper was in Janesville last Thursday and Mrs. Frank Snyder has been visiting friends here. Mrs. F. P. Wells is again able to be out after a few days illness. Mrs. Robert Strang is on the sick list. Mr. Davis has gone to Lone Rock on business. E. H. Bullard, of Evansville, has been in our town taking in wool. Will Keane left for his home in Ridge-way last Friday. C. Machintosh, of Lodi, has taken his place as night operator. Miss Ida Harper, who has been visiting her sister, Mrs. W. Cain, returned home last Tuesday. Jim Plunkett is again able to be out. Joe, Charles and Ida Woodstock called on friends here Sunday. Mrs. M. Honeysett, of Janesville, called on friends here. On account of the storm, the social which was to be at N. Curry's was postponed. Footville will be represented at the M. W. A. picnic at Beloit, Thursday. W. Keane entertained his brother from Madison last Thursday. Jim Meehan has bought the Dolan building, which he will move and run a confectionery store. Ed. Brown was called to Janesville on business. Dr. Lucy has commenced his new residence. The Chicago & Northwestern road is erecting a new water tank here. A number from here attended Bruce Dean's party Saturday evening. Misses Sue Harper and Clara Fisher returned home last Monday, after spending a few days at Belvidere. Mrs. Stocker has returned from Caledonia, where her husband is night operator.

**Fairfield.**  
Fairfield, May 31.—Mrs. James Gregory and children of Magnoketa, Iowa, are visiting her parents, Mr. and Mrs. John Dykeman. The Fairfield camp will be well represented at the M. W. A. picnic at Beloit. The next meeting of the Ladies' Industrial society will be at the home of Mr. and Mrs. Earl Wetmore. Rev. and Mrs. Dennis and Irving of Emerald Grove, were pleasant visitors at this place last Thursday. Rev. I. Johnson is planning for the reopening of the M. E. church, in about two weeks. The first service will be a concert and social. A more complete notice will appear next week. James Outter and family spent last Wednesday with Whitewater friends.

**Evansville.**  
Evansville, May 31.—Mr. and Mrs. Tom Tell, of Beloit, laid their baby boy to rest in the little cemetery here beside the little one laid away a year ago. Mrs. Tell is spending a few days with her mother, Mrs. Hancock. The rain Sunday night was very hard, with some hail mixed in. Most of the corn that has been planted is coming up nicely. Some few pieces have had to be replanted, owing to poor seed. Mr. Van Platten has the prize calf. It weighed 147 pounds before it had eaten any. The Illinois creamery is doing a good business this spring.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Grange Mills, La. For sale by People's Drug Co.

## MANY WILL HEAR WM. OWEN

Young Romantic Actor to Appear At  
Myers Grand Friday.

No young actor has ever won as much praise, or met with more well deserved success than has Mr. William Owen who will shortly appear in our city in a dramatization of "Dumas' famous romance, "The Three Guardsmen." As always, Mr. Owen is surrounded by a powerful company, headed by Mr. J. W. McConnell and Miso Canilla Reynolds. "The Three Guardsmen" requires as strong as well as a large cast and the people have been especially selected to play the parts assigned to them. Mr. Owen will be seen as D'Artagnan which is one of his very best characters, and one that is suited to him perfectly. The hero of the play is a young country-bred Frenchman who goes to Paris and the story deals with his adventures there.

He is brave handsome and reckless with a great love for fun and fight. The play is given a full scenic production special stuff being carried for all the important acts. The costumes are beautiful and historically correct. The engagement for the Owen company is for one night only, Friday June 1st. Judging from the amount of talk already going the rounds regarding the company there will be a well filled house.

## A FIRST CLASS PERFORMANCE

Al. W. Martin's Mammoth Company at  
Myers Grand Tomorrow Night.

It is refreshing to know that we are to witness a complete revival of that famous old historical play, "Uncle Tom's Cabin," as produced by Al. W. Martin's mammoth company, with Milt. G. Barlow, the famous minstrel star, as "Uncle Tom," at the Myers Grand tomorrow night.

Of late years, the American stage has been so deluged with counterfeit and unreal presentations that all purported to be correct dramatizations of Harriet Beecher Stowe's delightful novel, that the announcement of an "Uncle Tom's Cabin" production, with a little distrust.

Al. W. Martin has succeeded at every turn, in faithfully and correctly depicting the ideas of romance and fact, that the authoress in her novel conveyed. Its effort and success are to be commended in its truthful and faithful adherence to both the lines and ideas of the original text. The company, is an excellent one, both as regards dramatic strength and numbers. It is doubtful, if in earlier days, when "Uncle Tom's Cabin" occupied an enviable position, and when it was the novelty of the dramatic stage, it ever received the attention so liberally bestowed upon it, as in its present revival, either in its treatment dramatically, or in its scenic environment. The stage settings and pictures are noteworthy and generous.

[LETTER TO MRS. PINKHAM NO. 73,936]

"DEAR MRS. PINKHAM—I have three children and suffered with falling of the womb and flooding. My physician scraped the womb, still the flooding continued and I was no better. At last he advised me to use Lydia E. Pinkham's Vegetable Compound. Then I thought I would write to Mrs. Pinkham for she could advise me better than any one if I was to take her remedies. I received her reply and followed all her directions and I am very glad to send you this testimonial, for Lydia E. Pinkham's Vegetable Compound is just what it is recommended to be. I advise all women who suffer from these complaints to try it."—MARIE LEMP, 108 2d AVE., NEW YORK CITY.

More than a million women have been helped by Mrs. Pinkham's advice and medicine.

## THIS DAY IN HISTORY.

1740—Frederick William I of Prussia died; born 1688. Frederick William I was the father of the Prussian king. On taking the throne he set to work to make Prussia respected because of her army, and he left his successor, Frederick the Great, 72,000 soldiers among 2,540,000 subjects. He turned the famous corps of giant soldiers and paid to one, 5 foot, Irishman, picked up in the streets of London, a cash bounty of over \$5,000.

1815—John Albion Andrew, war governor of Massachusetts, born in Windham, Me.; died 1874.

1890—General George J. Stannard, who with his Vermont militia gave Piccott's column its finishing blow, died in Washington; born in Georgia, Va., 1820.

1898—In a crush at the fetes of the czar's coronation at Moscow, 1,200 people were killed. Commodore Schley's vessels engaged the Spanish fleet and ships at Santiago in a duel. Baron Leon Playfair, distinguished English chemist, civil service reformer and parliamentarian, died in London; born 1819.

## STREETS AND SIDE TRACKS

A system of side tracks is naturally valuable to a manufacturer and through him to his employees and the business men that the proprietor and workmen patronize. It is also a source of income to the railway company that builds and maintains it. Such systems, and the extensions thereof are desirable, for such trackage benefits enterprises that create and distribute wealth among the people.

The streets of a city are also valuable. They belong to the people, and should be given up only in cases of necessity in advancing the material welfare of the community. It matters not whether the street is abandoned absolutely by vacation, for instance, or rendered inconvenient or unsafe for travel, the principle involved is the same.

The Chicago & Northwestern and the Chicago, Milwaukee & St. Paul Companies both own and maintain side track systems that are of benefit to themselves and the community. It is to be hoped that these systems may be extended until Janesville manufacturers are given all possible advantages. In these days of sharp competition, manufacturers and business men should receive every equitable concession, and the fact that such concessions may afford some profit to a railway company should in no way influence the judgment of the people.

But in allowing the use of streets, the authorities should fully protect the interests of the people. The traction companies are ready and willing, doubtless, to "do the fair thing," but it is just as well to look to the future. Conditions may change, and precedents established may form a basis for future agreements.

That cities can afford to be very liberal in dealing with railway companies is a fully accepted fact, but that they cannot afford to be extravagantly liberal is equally apparent. The sovereign rights of the people should not be legislated away without due thought and consideration, but there is always a middle ground that is just to both the people and the builders of desirable public improvements, and upon this middle ground, the authorities of municipalities should stand.

Give the railways everything that is fair, and exact everything that is fair from the railways.

The correspondents who "faked" in interviews with General Lawton have been denied the use of the cable, and cannot send their papers such news in the future. This is right. The correspondent who sends out fake news would sell adulterated medicine; if he were a druggist, and is entitled to no consideration whatever.

Green Bay's chief of police has issued an edict that loading about the streets must cease. This is a wise order. The policeman's command to "move on" always means that the city that employs him is moving on, too. Nothing gives a stranger a more unfavorable impression of a city than the sight of knots of loafers on the street corners.

The license committee of the common council have the right idea of the matter of the tax to be paid on the opera house. If any tax is exacted, it should be only nominal. The opera house property is taxed the same as other property, and that is all that should be required under the circumstances.

Mrs. Fitzsimmons will see the fight between her husband and Jeffries, and will doubtless coach him with the refined and beauteous language she is said to have used at Carson City, such as: "Never mind 'tumpin' 'is jaw, sweat 'im 'is th' slats!"

The Murphy Lumber Company, of Green Bay, has advanced the wages of its employees twenty per cent. Democratic papers please copy.

The Chicago Times Herald seems to have the right idea. When Col. Hender-

son consulted with the Wisconsin Congressmen, he was certainly talking to the "men who make speakers." Other states please take notice.

The Cubans are now applying for their pay and surrendering their arms, and the opposition to the plan appears to be a thing of the past.

Du Paty du Clam is a fearful name to be burdened with, but it seems to be the general impression that it is well deserved.

Col. George M. Randall, formerly of this city, has charge of the payment of the Cuban soldiers at Havana.

He who undertakes to read the articles about the trial of Dreyfus aloud is a brave man.

M. Zola will now get out of the "also ran" division.

## IN THE BACK YARD.

How One May Have a Pleasant Garden There.

One may have a garden in town as well as in the country if one has ambition and a strong back and sufficient faith, hope and patience, says the New York Commercial Advertiser. And this is the time to begin work. The despised backyard, with its high fences and its handful of earth, will yield as lovely color effects as a church window and with a little encouragement will prove its right to be something higher in the scale of utility than a place for Bridget to hang clothes. In one respect the city yard is like the country; it is deep, and depth is an important consideration when hardy flowers are to be planted. The shallowness of window boxes is the cause of the tears and disillusion of most window gardeners. They bury their flower seeds and hopes in a few inches of earth, and sometimes they never come up. With a back yard, even a very small one, the lover of summer can have a honeysuckle bower, morning glories, roses, clover, wistaria and sweet peas. With more patience and more water, if there is any space left, one can have mignonette, phlox, candytuft, zinnias, petunias, hollyhocks, bachelors' buttons, gladioli, primroses, nasturtiums, and even wood violets and lilies of the valley. Violets, primroses, lilies and pansies need a shady spot, but the other things are hardy and can stand sunshine or shade. Don't buy flower seeds in little envelopes and don't buy garden soil from the old clo' man. A reliable florist and seed by the pint are better. Plant deep to give the seeds plenty of room, but don't be stingy about seeds. A handful of sweet pea seeds in even a wee backyard is as a drop in an ocean. One can't have too many sweet peas, and they are hardier and more exquisitely tinted than all other backyard blooms put together.

## Strange Suit in Oklahoma.

A suit at Oklahoma City has brought out a most curious train of circumstances. A woman secured a divorce from her husband, together with a large amount of alimony. The divorced husband then entered into an agreement with a good-looking young man in the neighborhood whereby the young man was to pay court to the woman, marry her, get control of all her property and divide it with the divorced husband. The young man carried out his agreement to the letter and then fled the country. The suit is now brought by the woman to recover the property of which she was defrauded by the conspiracy.

## MR. COOPER STAMPS REPORT AS FALSE

SAYS HOPKIN'S FOOL FRIENDS MADE CHARGES.

Henderson Made No Promises And Was Not Asked to Make Any—Gratified Because Wisconsin Members Did Not Attempt to Dicker For Committee Places.

The following interview with Congressman Cooper, regarding the speakership contest, appeared in this morning's issue of the Milwaukee Sentinel: "There is not a word of truth in it. It is an absolute falsehood made out of whole cloth." This was the reply of Congressman H. A. Cooper, of Racine, when asked for a statement regarding the charge made by friends of Congressman Hopkins, of Illinois, published in Chicago papers, that in return for the support of Gen. Henderson the latter had promised Mr. Cooper the Rivers and Harbors chairmanship.

Mr. Cooper spoke with great emphasis in his office at Racine to a Sentinel representative, and reiterated his denial with increased force. "I have never had a word of communication with anybody on the subject," he went on. "Never had I even dreamed that a charge of a pledge had been made regarding my position on the speakership, until I saw it in the Chicago papers. Mr. Babcock never said a syllable to me on the subject. He has no more influence over my vote than a man in Bohemia. In fact, nothing has been broached to me on this topic by anyone whatsoever, nor have I ever said a word to anyone else. Neither do I know of any promises being made to others for their support."

"Why, only last night, on my return to Racine, I found a letter from General Henderson awaiting me, in which he expressed his gratitude for the support of the Wisconsin delegation, particularly because of the fact that no promises had been made or asked for."

Here Mr. Cooper produced a letter written by General Henderson since the Milwaukee caucus of the Wisconsin delegation. It was evidently a missive of a personal and private character. After thanking the Wisconsin members for their support, it contained this statement:

"This action of the Wisconsin delegation, without attempting to dicker, or pledge me on committee places, which so many try to do, is very gratifying." "The statement," Mr. Cooper resumed, "that I am promised the chairmanship of the Rivers and Harbors committee is intended to injure the chances of Gen. Henderson; that, of course, was the motive of the instigator. The sending of this report broadcast is calculated to do great harm in certain localities. There are many things that I opposed as a member of that committee, and so it becomes evident that it is a thing that simply ought not to have been said. Its whole purpose, in short, was to hurt Gen. Henderson."

Mr. Cooper said he felt confident of the election of Gen. Henderson, though he had received little definite information, since the Milwaukee caucus, as to the progress of his campaign.

# SIX HUNDRED TO VISIT LINE CITY

Local Committee Of Woodmen Say That That Will Likely Be the Figures—Janesville Business Men Don't Want the Picnic Next Year—Will Go to Madison.

Providing that good weather prevails members of the local order of Modern Woodmen estimate that fully six hundred people will leave Janesville tomorrow for Beloit to attend the annual Modern Woodmen picnic. Two hundred tickets have already been sold on this city. On both the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul railroads frequent trains will be run and the rate of forty-five cents for the round trip has been made. No effort will be made by the local delegates to land the picnic next year in Janesville. It is said that that question has already been settled and that Madison will be given the prize for the year 1900.

To have brought the picnic to Janesville would have required \$1,000 and local business men were not willing to subscribe. The Imperial band of twenty-six pieces will head the local camp in the procession. Members of the Foresters team will be attired in uniform and in the procession will lead a goat on which will hang a banner on which will be printed the name of the local camp with the name Janesville beneath. The Second Congregational church will be the headquarters for the local Woodmen and all will be comfortably cared for. This will not be the first time Beloit has enjoyed the Modern Woodmen's picnic. It was held there in 1895 and was then the biggest picnic ever held by the association, but was nothing in comparison with what this promises to be.

The picnic got their inception from the annual lodge gathering in this vicinity. A few "neighbors" were asked to join the party. Then greater numbers united and finally there was a general rally at Rockford, Ill. Since then an association was formed, and the association picnics have been affairs of much importance. Some of the cities to send camps Thursday are Janesville, Madison, Monroe, Brodhead, Darlington, Delavan, Whitewater, Watertown, Racine, Wis., Rockford, Elgin, Freeport, DeKalb, Sycamore, Harvard, Woodstock, Belvidere, Waukegan, Ill.

## COMPLIMENT TO JANESVILLE

Grand Rapids Paper Speaks of Local Delegation at Convention.

The Evening Press, of Grand Rapids, Mich., in speaking of the recent convention of Y. M. C. A. secretaries, paid the following compliment to Janesville: "Janesville, Wis., furnished the feature this forenoon by sending over a good delegation of regular and correspondence representatives and a first class band, consisting of twenty-three pieces, under the leadership of Prof. J. S. Taylor. The band arrived very early in the morning, having come across the lake, and the first thing that many tired delegates heard at an early hour from their apartments in the Merton, was the tooting of instruments. The music was so good that no one felt disposed to complain because he had been aroused, and all enjoyed the early serenades immensely. The band is a credit to itself and the association and town it represents. Every player of the twenty-three, is a member of the Janesville Y. M. C. A., which makes it a strictly an association organization. It was announced from the platform yesterday afternoon that all the Canadian delegates were to assemble on the stage immediately after the meeting and by many it was supposed that the conference was to be pertaining to the boom for Montreal for a meeting place in 1901. Such was not the case, however, although the rest of the delegates were not misinformed. This morning the first impression caused by the band was that it was from the Canadian city, and had been brought here by the Montreal men. Every one at first supposed that was what the conference was about, yesterday. Then some one said it was a Boston band instead, and had come to play for the Massachusetts metropolis, chances two years hence. At last the combined statements of both Bostonians and Montrealers served to disillusionize every one, and the players themselves indignantly declared that they came from Wisconsin on a strictly neutral errand. "The band played in front of the association building until it was time to call the convention to order, when it moved to the front of the Auditorium, and there attracted a larger outdoor crowd than has yet been brought together by the convention."

It gives a delicious flavor. Don't add the curry until nearly done. It destroys the strength of the powder. Use a large pickle finely chopped instead of lemon juice.

**DRESSING FOR VEAL.**—Chop good breakfast bacon very fine and mix it with an equal quantity of dried bread crumbs and apple. Season well with parsley, thyme, a little paprika, nutmeg and lemon peel. ## Old Glory Flower.

A strange flower has been found on the lichen of Tehuantepec. It grows on a small tree and gives forth a perfume only at noon, but this is not the queer part, for in the morning it is pure white, at noon red and in the evening blue. If this red, white and blue blossom only grew thickly in the United States it would, perhaps, be the national flower.

## FLEEING SPORTSMAN ARRESTED HERE

CHAS. PARSONS OF KOSHKONG IN BASTILE.

Came to Town Early This Morning—Taken by Surprise by Officer Cochran—Eluded State Game Wardens Johnson and Stone Who Had Warrant For His Arrest.

Charles Parsons, the Lake Koshkonong fisherman, for whom a warrant was issued by Judge Fifeild last week and who eluded State Game Wardens Johnson and Stone by fleeing, was arrested on the streets of Janesville at an early hour this morning by Officer Wallace Cochran. At 10 o'clock Parsons appeared before Judge Fifeild and entered a plea of guilty to illegal fishing with nets in Lake Koshkonong, contrary to law. The court then imposed a fine of \$35 and costs or a total of \$47 and in default of payment a sixty day sentence in jail.

Parsons being without the necessary cash went to jail. The arrest of Parsons was brought about in rather an unexpected way.

At an early hour this morning, Officer Cochran came up town for the purpose of arranging a trip to the country to attend to some business. As he came along Milwaukee street he noticed Parsons coming down the street. The two men soon came face to face.

"I hear that State Game Warden Johnson is looking for me," said Parsons.

"I guess not," replied Officer Cochran.

Parsons was about to congratulate himself and walk away when Officer Cochran placed him under arrest.

## SEVERAL NOW TALK FOURTH OF JULY

COMMITTEE MADE CANVAS THIS MORNING.

Many of the Local Business Men Say That a Celebration Should Be Held Here This Year—Meeting Called For Friday Evening at the Common Council Chamber.

Several local business men made a canvas of the city this morning for the purpose of determining how many favored the holding of a good old fashioned Fourth of July celebration this year.

The committee met with encouragement from the majority of business places visited.

On Friday evening of this week, it is proposed to hold a public meeting at the vacant store in the Rock County Bank building to make definite plans in relation to taking final action.

Eight hundred dollars would be sufficient to carry out a celebration here that the city would feel proud of.

It has been four years since the Bower City indulged in a hilarious time on the Fourth of July, and now that many of the business men favor holding a celebration this year, the indications are that the plan will be successfully carried out.

"I do not believe any of the business men gave the holding of a celebration here a serious thought until they read the article in The Gazette last evening," said one of the committee who made a canvas of the town this morning. "Nothing was done in the matter until 8 o'clock this morning when we started out to feel of the public pulse."

The holding of a celebration would mean the bringing of thousands to the city, as no city within a radius of many miles has made any preparations for a celebration.

In case the local business men decide to hold a celebration, it is proposed to map out a most excellent program of sports, which would undoubtedly include cycle races, and a base ball and other games in the afternoon and a grand display of fireworks in the evening.

A DIRECTORY for graduate nurses has been established at King's Pharmacy. The names, addresses and hospital from which each graduated are given. Calls for their services may be received there.

# WAS A GREAT INDIAN FIGHTER

Jackson Farley of California One of the Few That Are Left.

(From the San Francisco Call.)  
The great American Indian fighter, famed in history and dime novel, is rapidly becoming a memory of the past. With the taming and the thinning out of the Indian his occupation is vanished, and if you discover one to-day, he is either a very old man or else a very untruthful one, especially in California, where the hostile savage has not been seen in many years. One of the few authenticated Indian fighters of California is old Jackson Farley, commonly known as "Uncle Jack," who lives on his ranch high up in the mountains of Mendocino county. Uncle Jack has passed his ninety-second birthday, and will modestly admit the killing of 100 Indians. Only he will not say that he "killed" them; "stopped" is his favorite expression—an expression, by the way, that originated with him in the early 50's and subsequently became official vernacular among scouts and cattlemen. Between the years 1849 and 1865 Uncle Jack was engaged in almost constant warfare with the Indians of Mendocino, Trinity and Humboldt counties. He came to California from Virginia with the early settlers in search of adventure and fortune, and in search of revenge, too, for during the journey across the plains his best friend died from an Indian's arrow, and Uncle Jack felt easily into the then common belief that the only good Indian was a dead one. Trophies galore of the balance of that bloody journey he showed to the Call reporter. Scaps by the dozen, chairs bottomed with Indian hide, razor strops of the same greswome material, and countless bows, arrows, tomahawks and firearms. With neither wife nor child, only the comradeship of a big mastiff, Uncle Jack arrived here in 1849, and settled down to the business of stock raising on the lonely mountain ranges of Mendocino. From 1850 to 1856 there were no Indian agencies established, and the advent of a white man was an invitation to the treacherous instincts of the Indian. Murder, arson, and cattle and horse stealing ran riot. Farley went out one morning to inspect his stock, and found that 25 horses and 100 head of cattle had been stolen and that his favorite saddle horse had been killed and mutilated, its mane and tail hanging defiantly on the gate posts of the corral. Uncle Jack hastened back to his cabin, where he secured extra ammunition and another brace of six-shooters. Three friendly prospectors, with an extra horse, were in the neighborhood, and they and Uncle Jack set forth in pursuit of the thieves. Reaching a deep canyon where one of the El river tributaries came cascading down the mountain, they were about to water their horses when they were struck by the peculiar color of the water. It was blood red. "This was enough to tell Uncle Jack that the Indians were butchering his cattle up the river and washing the carcasses in the stream. In a flash he and his companions were riding up the trail, where they soon met a shower of arrows. This was in the day of the muzzle-loading rifle, and every one of the return shots had to tell. Uncle Jack and his friends dismounted and broke for cover. In the shelter of trees and bushes they poured a slow, deadly fire on the attacking red men. As fast as the savages could reorganize and surround, the rifles of the white men would cut gaps in the savage circle. Time after time the Indians were repulsed, their supply of arrows gave out, and they beat a retreat. Uncle Jack recovered only a remnant of his band of cattle and none of the horses, but exactly forty Indians, "good and dead," marked the quantity of his vengeance. This was one of Uncle Jack's most successful days. It soon became historic, and was instrumental in securing him a government scoutship when the first Indian post was established, in 1856.

**Seize Furniture in a Workhouse.**  
A workhouse is the last place in the world one would expect to find in the possession of a bailiff.

Yet at Falmouth workhouse on Saturday a bailiff seized under a distress warrant a quantity of the guardians' furniture and left a man in possession. The guardians have had a long-standing dispute with the Falmouth Water Company as to a charge of 40 pounds per annum for the supply of water to the workhouse, and have refused to pay the last quarter's rate. Hence the water company has treated the board of guardians as a defaulting customer, and has levied a distress warrant on the workhouse. The whole of the furniture in the boardroom and committee-rooms will be sold by auction on Friday next if the money is not paid.—London Leader.

## TAKING AN ISLAND.

How the Stars and Stripes Were Raised in the Pacific.

Way out in the middle of the Pacific ocean, half way between the United States and the Philippines, lies Wake Island, with its green palm trees nodding to the blue sea. It is a pretty island, but it is so far away from any place else that nobody lives there, and no nation has cared to own it. Now, since the United States has so many ships that are traveling to Manila, it was found that this island was just in the right place for ships to stop and take on coal, if necessary, and there were many other good uses to which it could be put. So, on the last trip of the Bennington, one of our battleships, the captain was ordered to take Wake Island in the name of the United States, which he did. First the Bennington anchored out in the harbor as close to shore as it could come, and boat loads of sailors came on land. These sailors set up a strong flagstaff, and then the captain ordered them to fall into two ranks, facing the sea, and called upon them to witness that the island was owned by no other nation. Then he declared the island the property of the United States and ordered the flag to be raised, and when Old Glory floated for the first time over Wake Island the sailors cheered and the big cannons on the Bennington boomed out 21 times in honor of the flag. After the salute from the cannons the flag was nailed fast and a brass plate was screwed to the base of the staff, telling in raised letters that Wake Island belonged now to the United States, and the date on which it was taken. Then they all went on board the Bennington and sailed, leaving our new island for a while to the sea fowl and the fishes. But the Stars and Stripes are waving there yet and the island is ours.

**The Duke's Chance.**  
When the duke of Edinburgh was a midshipman (says M. A. P.) a certain lieutenant was guilty of particularly mean conduct. He was entertaining some ladies to tea, and the latter expressed a desire to see the "Royal Middle." "That's easily done," said the lieutenant, and ringing a bell he ordered the sentry to send the prince, who was midshipman of the watch, to the wardrobe. The prince came and was put through his paces by his superior officer for the edification of the gaping ladies. H. R. H. bore it without a word, but he did not forget. Years after, when he was a post-captain, he was entertained at dinner by the members of the Naval Club at Portsmouth. As he was passing out of the room after dinner he recognized and spoke to many old friends. Presently he came to the lieutenant mentioned above (now also as captain), looked at him, and passed on. "His royal highness evidently does not remember me," said the officer to his next neighbor. Turning his head, the duke replied in icy tones, "Oh! yes, captain, I remember you very well indeed," and passed on—A well-deserved snub.

**A Giant Music Box.**  
The largest music box ever constructed will be exhibited for the first time at the Paris exhibition in 1900. Its inventor and builder, Antonio Zamboni, an Italian, devoted fifteen years of his life to construct it. He has bestowed upon his masterpiece the imposing name of Antoelektropolyphon. The music box plays every style of concert music in the most finished manner. In it are concealed 80,000 pieces of musical apparatus, which required an outlay of 60,000 francs.

## Strong Endorsements

Dr. Mary E. Green, president National Household Economics Association, member American Medical Association, member American Public Health Association, author of "Food Products of the World," writes from Charlotte, N.C.: "The excellence of Pabst Malt Extract is not unknown to me, as I have used it professionally for years, always with the most satisfactory results. For mothers nursing their children, and for general debility from any cause, I regard it as of especial value, as it combines both tonic and nutrient properties, which make it truly the 'Best' Tonic."

"I recently prescribed Pabst Malt Extract, The 'Best' Tonic, to three of my patients, all of whom were ladies, and all of whom were suffering from dyspepsia and its consequences, and in all these cases it acted like a charm. Two of them bought more of the tonic, and continued to take it, until now they tell me they can eat anything, and one of them added 'everything,' without the slightest inconvenience. They have certainly improved wonderfully in weight and strength. I have prescribed your 'Best' Tonic a great number of times. It is one of the best, if not the very best, of its kind."

## ARMY NOT TO BE INCREASED.

President Decides Against a Call for Volunteers—Otis Wants 30,000.

Washington, May 31.—The president has decided not to call for the 35,000 volunteers or any portion of them at present. It can be stated on authority that Gen. Otis wants only 30,000 men in the Philippines. He makes the simple request that the American forces there be kept at that strength. As the volunteer soldiers are returned their places will be taken by regulars, so that the strength of the American army in the orient is as low now as it will be permitted to get.

The present army law permits great elasticity in the size of the regiments. Those in the Philippines will be kept to their full strength, while those at the military posts in this country will be kept down to almost skeleton form. Possibly a regiment or two is all that will be required in Porto Rico, and 5,000 soldiers will be enough for Havana. The president thinks 65,000 troops will be sufficient for these demands.

## SPANISH MINISTER ARRIVES.

Duke d'Arcos to Restore Relations Between Washington and Madrid.

New York, May 31.—The duke of Arcos, Spain's new minister to the United States, arrived Tuesday on the Kaiser Wilhelm der Grosse. The duke came ashore as soon as he could leave the steamer and was met at the pier by several friends.

In referring to the recent war the duke said: "We must look to the future and forget what has happened. Then all will be nice."

"What do you think of the situation in the Philippines?" he was asked.

"Oh, I think there should be no trouble there. The United States is such a powerful country that it will conquer the Filipinos soon. The present situation should not last long."

## Cologne Gazette Is Doubtful.

Berlin, May 31.—The Cologne Gazette says that the prospects of the peace conference coming to a practical conclusion on the disarmament question are exceedingly small, and that the issue of the efforts to establish an international tribunal of arbitration is doubtful. The paper adds that wherever there were signs that a great war was approaching it would be found impracticable for the representatives of the powers concerned to disclose the secrets of their governments at arbitration deliberations. Neither could they, on the other hand, keep the attitude of their governments or their possible alliances secret from each other.

## Pardonable Ignorance.

From the Kansas City Journal: At Fort Scott the other day the Presbyterians and the Methodists had an old-fashioned spelling match, with thirty-two on each side. One by one the contestants were spelled down until only two Presbyterians and one Methodist remained. Then the master gave out the word "pisan," and all three missed it, leaving a victory for neither side. Pisan is defined in the dictionary as a malicious decoction used as a drink, and it is not to be expected that Presbyterians and Methodists would know much about drinks.

## Attributed to the Salla Law.

Nearly all the historic wars that have taken place in Europe since the days of the first crusade may be attributed to the existence of the Salla law, and even in the present century sanguinary struggles have taken place on its account. Great Britain and Russia are the only two countries where it has never secured any foothold, and neither the one nor the other has ever had any reason for regret.

## TELLS OF MASSACRE IN CUBA.

American Soldier Writes That Twenty-Seven Comrades Were Shot.

Quincy, Ill., May 31.—Capt. John A. Hoefler, late of the United States volunteer cavalry, has made public a letter received from his brother, serving in Santa Clara province, Cuba, with the Second cavalry. The letter states that last week twenty-seven soldiers of troops K and I of the Second cavalry were shot down by Cubans. The comrades of the murdered men wanted to avenge their deaths, but they were forbidden to return the fire.

The letter, which is brief, does not state what gave rise to the massacre, nor does it mention the names of the victims or the men who issued the orders which prevented an exchange of shots. The writer bitterly says that the comrades of the murdered men are lying awake at nights praying that the Cubans may do something that will provoke the American soldiers to an attack on them.

## Fire Bugs Burn a City.

Curtis, Neb., May 31.—Fire bugs destroyed the business portion of Curtis early Tuesday morning, and the loss is estimated at \$100,000. The fire started in the implement house of P. Johnson & Co. It quickly spread to the north, and the business portion of the town was destroyed. One and a half blocks are in ashes. Only heroic work saved the other houses. Over 50 per cent of the residents had their household goods on the hill west of the town when the excitement was over. In all there was about \$20,000 insurance carried on the property burned.

## Have a Plan for Arbitration.

The Hague, May 31.—American, British and Russian delegates at the peace conference are said to have agreed upon a plan for arbitration that may include a permanent tribunal. The American delegates are also reported to have perfected a mediation scheme, but it does not include compulsion at any stage of international difficulties. The original Russian scheme for arbitration is said to involve the principle that no state should be tied down, and that each should be left sole judge when to accept arbitration or mediation.

## Win by Miller's Pitching.

Detroit, May 31.—It was a clear case of Guy Miller Tuesday in the game at Bennett Park between Michigan and Wisconsin, for "Socrates" struck out fifteen Badgers, and while the Wolverines only found him safe five times, he was generous with bases on balls, wild pitches and wilder throws to first to catch base runners. The score: Michigan ..... 1 1 0 0 2 0 2 0 3 Wisconsin ..... 0 0 0 0 0 1 0 0 1

## Honors for an Agent Veteran.

## IT MERITS ATTENTION

A NEW PREPARATION WHICH CURES DYSPEPSIA AND STOMACH TROUBLE.

### Remarkable Curative Properties.

A new remedy, which may revolutionize the treatment of stomach troubles, has recently been placed before the public and bears the endorsement of many leading physicians and scientific men.

The remedy is not a wonderful secret discovery nor a patent medicine, neither is it claimed to cure anything except indigestion and stomach troubles, with which nine-tenths of our nation are afflicted.

The remedy is in the form of pleasant tasting tablets or lozengers containing vegetable and fruit essences, pure aseptic pepsin (free from animal impurities) bismuth and Golden Seal; they are sold by druggists generally under the name of Stuart's Dyspepsia Tablets.

Many interesting experiments made with these tablets show that they possess remarkable digestive power, one grain of the active principle being sufficient to thoroughly digest 3,000 times its own weight of lean meat, eggs, oatmeal or similar wholesome foods; these tablets do not act on the bowels like after dinner pills, nor in fact do they act upon any particular organ, but the manner in which they cure all forms of indigestion is this: They act entirely upon the food eaten, digesting it completely, nourishing every tissue and nerve in the body; they simply perform the work of digestion, thus giving the weak stomach rest and assistance sufficient to enable it to recover its normal strength. This is the reason so many pretended cures have signally failed; they do not furnish the digestive power which is the one thing above all others that the stomach of the dyspeptic lacks and unless that lack is supplied, it is waste of time to attempt to restore the enfeebled stomach by means of "tonics," "stomach bitters" and "pills" no permanent good can result from their use.

If the stomach can be rested and assisted in the work of digestion it will very soon recover; this is the secret and the whole secret of the success of Stuart's Dyspepsia Tablets, a remedy practically unknown a year ago, now most popular, widely used dyspepsia remedy everywhere a success secured almost entirely on its merits, as it has never been extensively advertised.

Stuart's Dyspepsia tablets are now sold by druggists everywhere at 50 cents per package; if he hasn't them in stock he will order them for you from his wholesale house. They are made by F. A. Stuart Co., chemists, Marshall, Mich., who will be pleased to send information and testimonials from every state in the union.

They never pinch the foot.  
They are beautiful in design.
